Key Benefits

Automated Commission & Revenue Sharing

Streamline complex calculations with automated processing for internal teams, partners, and external vendors.

Seamless Integration with Business Systems

Connect effortlessly with Workday, Salesforce, ERP, CPQ, and AP systems to sync critical data.

Real-Time Visibility & Analytics

Access dashboards and reports for instant insights into commission structures, payout schedules, and profitability.

Approval Workflows & Compliance

Set up multi-level approvals, enforce thresholds, and maintain an audit trail for transparency.

Flexible Payout Models

Calculate commission rates on revenue with unlimited possibilities: caps, tiers, usage, performance, contractual agreements, and more.

Forecasting & Expense Planning

Predict commission expenses and payout timing to optimize financial planning.

How We Do It

Rule-Based Automation

Configure commission calculations based on predefined rules, eliminating manual errors and ensuring consistency.

Dynamic Data Integration

Sync data from multiple systems, including contracts, invoices, payroll, and financials, to drive accurate payouts.

Customizable Approval Flows

Set approval thresholds, automate multi-step approvals, and track adjustments for full governance.

Real-Time Insights & Forecasting

Access detailed reports and dashboards to monitor commission performance and plan future payouts.

Scalable & Adaptive Architecture

Our scalable platform supports enterprise grade transactional volumes that enables business growth.

Future-Proofed for Growth

Adapt to evolving business needs with a flexible, scalable solution that can accommodate new compensation models, policies, and industry changes.

Why Choose Our Solution?

Supports Internal and External Compensation

Whether for sales teams, delivery units, or third-party partners, we ensure accurate and timely compensation.

Faster Implementation & ROI

Get up and running quickly with sandbox testing, intuitive workflows, and rapid configuration options.

Ownership

Your business users are equipped to self-manage high complexity revenue share operations through a simple point & click interface.

Security & Access Control

Define roles and permissions to maintain compliance and control over commission data.

Scalable & Future-Proof

Adapts to evolving business needs with flexible configurations and rule-based automation.

See It In Action
