

BillingPlatform Digital  
Commerce Hosted Payment Pages

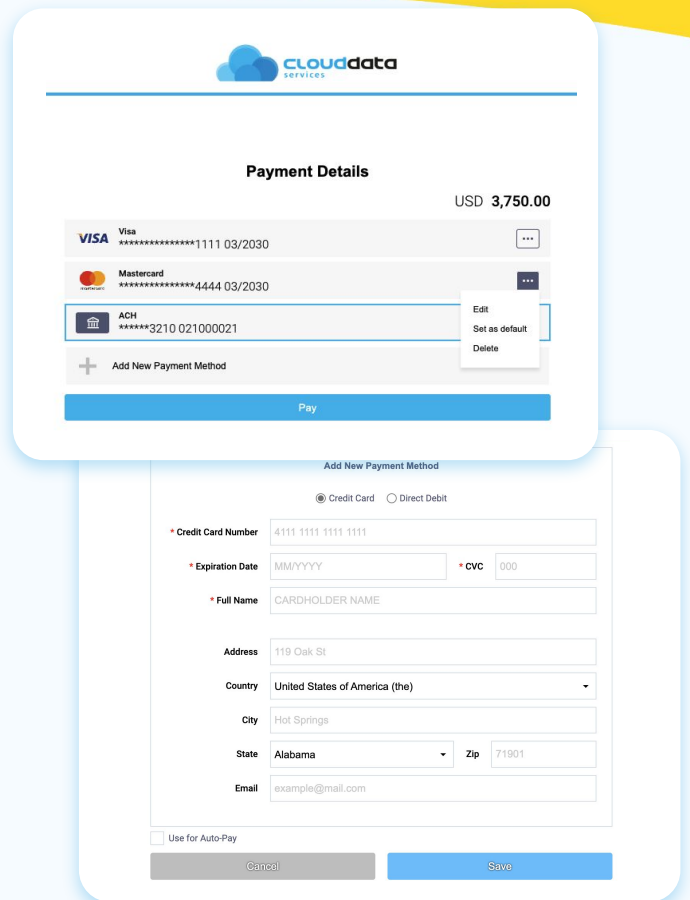

# A Seamless Payment Experience

## Offer customers an easy checkout experience with Hosted Payments from BillingPlatform

At BillingPlatform, payments are a core function of the solution. You can easily add a payments page to an e-commerce site, making it easy to tie into our payment framework. This allows your customers to pay for a purchase while provisioning all the billable info in BillingPlatform for ongoing billing activities.

BillingPlatform integrates with a number of payment gateways—including our new, native BP Pay gateway—giving your customers a fast and secure way to make one-time payments or enroll in autopay. Trust BillingPlatform to handle your customers' credit cards with PCI level 1 compliance, the highest certification standard for companies in electronic payments industry.

## Simplify Customer Payments

Give customers online and real-time access to make electronic payments:

- ✓ Built for first time and repeat visits
- ✓ Enter and manage credit or debit cards
- ✓ Set-up ACH and direct debit
- ✓ Determine default payment
- ✓ Activate auto-pay

## Streamlined & Secure Payments

Embed hosted payment pages in any checkout page to capture electronic payments

- ✓ Highly available, low latency, high throughput
- ✓ Apply taxes in real-time
- ✓ PCI compliant
- ✓ Fully brandable
- ✓ Utilize a number of pre-integrated gateways

## Benefits for you and your customers

Pre-integrated payment gateways provides a quick and efficient way to add payments to your e-commerce sites

### Efficiently take digital payments

Enhances trust with customers

### Tie billing & payments together

Lowers operational costs

### Pre-integrated Gateways

Always on, scalable infrastructure

### Secure

API calls secured with OAuth tokenization

## A Single Solution for Electronic Payments

BillingPlatform offers e-commerce pages with built-in payment acceptance and processing, providing the security needed for safe and reliable transactions.

BillingPlatform's hosted payment pages simplify subscription and recurring billing while enhancing security by keeping customer data protected. They support multiple payment options and defaults, ensuring a smooth and efficient checkout process. Highly embeddable, these pages can store payment methods and set defaults for quicker access, improving the overall customer experience.

- ✓ Embed hosted payment pages in any checkout page to capture electronic payments for purchases
- ✓ Enables pay by link (unauthenticated) payment page
- ✓ Manage multiple stored payment methods
- ✓ Real-time calculation of sales tax on shopping cart ensures correct upfront payment amount
- ✓ Fully brandable to match your company's look & feel
- ✓ Minimal integration overhead
- ✓ Eliminates merchant's PCI compliance burden
- ✓ Highly-available, low latency, high throughput

As the industry leading cloud-based billing and revenue management solution, BillingPlatform provides full lifecycle support of the monetization process – from data management, product setup, quoting, billing and invoicing, revenue recognition, through payment and collections – all on a secure, next-generation cloud platform. The unparalleled flexibility of the platform puts enterprises in control of how they differentiate in the market, maximize profitability, reduce operational costs and improve the customer experience.
